Beyond Fossil Fuels: Costs and Benefits	NYT - 33 days ago	28
The cost-benefit analysis for renewable energy varies, depending on the technology used, and also depends strongly on highly local factors like the abundance of wind or sunshine. [portugal, turbine, wind, energy, fossil fuel, renewable energy, renewable, fossil, wind turbine, depend, fuel cost, fuel, vary, beyond]		
Motorbikes Could Run Efficiently on Air	Livescience - 74 days ago	11
Motorcycles powered by a compressed air engine could cut vehicular emissions in developing countries by more than half. [compress, air, motorcycle, engine, turbine, tank, singh, india, emission, renewable, minute, swap, pollution, motorbike]		
Raser, Hyundai to develop electric trucks	Headlines from - 75 days ago	0
PROVO, Utah (AP) -- Environmental energy company Raser Technologies and Korean truck maker Hyundai Heavy Industries said Tuesday they are teaming up to develop renewable energy projects and electric vehicles.... [solar, energy, plant, renewable, power plant, utility, project, renewable energy, wind, fossil fuel, turbine, wind power, emission, technology]		
PUC gives HEKO OK to purchase renewable biodiesel	Headlines from - 96 days ago	0
HONOLULU (AP) -- The state Public Utilities Commission has given Hawaiian Electric Co. the green light to purchase renewable biodiesel from a subsidiary of Renewable Energy Group of Iowa.... [energy, renewable, turbine, reno, wind, city hall, wind turbine, atop, renewable energy, install, rig, herbert, advertisement, hall]	BBC News -	117

Oil's true cost	117 days ago	
Why Gulf of Mexico oil spill should be a wake-up call [drill, energy, spill, gulf, environmental, fuel, clean, oil spill, exploration, rig, water, sea, usa, disaster]		
M4 set to be 'hydrogen highway'	BBC News - 212 days ago	32
The M4 in Wales is to become a "hydrogen highway" as a way of boosting renewable energy use in transport. [hydrogen, wale, highway, renewable, alternative, vehicle, transport, fuel, renewable energy, energy, facility, low-carbon, south west, plug-in]		
Turning Trash to Fuel and Reducing Battlefield Risks	Scientific American - 247 days ago	15
In a bid to reduce the number of dangerous and expensive convoy missions trekking to remote base camps in Iraq and Afghanistan and to dispose of trash at those bases, the Army is backing an industry project aimed at turning solid waste into diesel . Covanta Energy Corp. is using the \$1.5 million boost from the Army Corps of Engineers to develop technology for converting garbage into diesel that would be indistinguishable from crude oil-based diesel fuel and usable for military vehicles and generators. [More] Iraq - Afghanistan - United States Army Corps of Engineers - Petroleum - Diesel fuel [diesel, trash, fuel, army corp, army, afghanistan, dispose, waste, battlefield, iraq, convoy, solid, corp, usable]

[Shifting The World To 100 Percent Clean, Renewable Energy As Early As 2030: Here Are The Numbers](#)

Wind, water and solar energy resources are sufficiently available to provide all the world's energy. Converting to electricity and hydrogen powered by these sources would reduce world power demand by 30 percent, thereby avoiding 13,000 coal power plants. Materials and costs are not limitations to these conversions, but politics may be, say researchers who have mapped out a blueprint for powering the world.

[Clean energy to create more jobs than coal: study](#)

OSLO (Reuters) - A strong shift toward renewable energies could create 2.7 million more jobs in power generation worldwide by 2030 than staying with dependence on fossil fuels would, a report suggested Monday.

[Biofuels vs Fossil Fuels](#)

Biofuels are not much better than fossil fuels in terms of the impact on atmospheric pollution levels and effects on climate change, according to Mark Jacobson professor of civil and environmental engineering at Stanford University. This is especially true when making claims about the sustainability of biofuels in comparison with hydrogen fuel cells and battery-driven [...] Biofuels vs Fossil Fuels is a post from: Sciencebase Science Blog
