

Lucknow Scientist Receives International Recognition

January 14, 2024 [Lucknow Tribune](#)

Lucknow: Elsevier stands as a prominent figure in the academic realm, renowned for its excellence in Science & Technology journals. It serves as a hub for research papers from across the globe, meticulously reviewed by esteemed scientists of international stature.

In the year 2010, the title of Distinguished Scientific Reviewer was conferred upon Prof. (Dr.) Bharat Raj Singh, the Director General of the School of Management Sciences in Lucknow. Over the course of the last 13 years (2010-2023), Dr. Singh has played a pivotal role in evaluating research papers, particularly those pertaining to the energy sector and addressing global climates in the face of environmental challenges. Laura Hassink, the Managing Director of Elsevier, extended heartfelt appreciation to Dr. Singh for his voluntary dedication of time and expertise.

Dr. Bharat Raj Singh's contributions extend beyond his role as a scientific reviewer. His global recognition in the realms of research on invention, global warming hazards, and climate damages has earned him numerous accolades. Notably, he secured a place in the Limca Records on three occasions (2014, 2015, and 2017) for his groundbreaking invention, the Air-O-Bike. His initiatives, including incorporating glacier melting challenges into the US curriculum for grades 9th to 12th and conducting awareness programs in 400 schools have impacted around 45,000 individuals within a span of three months.
