CITY BRIEFS

SCIENTIFIC ASPECTS AT KUMBH MELA

SMS Lucknow has formed a team of faculty and students in order to unearth various scientific aspects behind the huge gathering driven by belief and faith enveloping spiritualism amongst pilgrims at Kumbh, under the aegis of Vedic Science Centre. Senior environmentalist and director general (Tech), SMS Lucknow, Bharat Raj Singh said the transition of the Sun into 'Makar Rashi' creates a force of attraction that induces faith and belief in living beings which make them assemble at Kumbh Mela. The main objective behind the formation of this team is to extract the gist pertaining to the acknowledging of spiritualism. According to secretary and CEO of SMS Lucknow Sharad Singh, special emphasis has been on research work since 2010. He said that under the continuation of research activity at the institute, it had scored first position in 'Navachar, Navaparivartan and Startup' among the technical institutes affiliated to AKTU.
