SMS SETS RECORD

Director-general (Technical), School of Management Sciences, Lucknow, Bharat Raj Singh said Limca Book of Records ranked the institution as the first technical college in India to address the problems caused by global warming by spreading awareness amongst 45,000 people through 400 schools and colleges of 28 districts of the state in just four months. SMS has been working global-

ly for the past several years about the issues and Singh has initiated campaign while publishing a book titled 'Global-Warming - Causes, Effects and Remedies - 2015'. He said it was an honour for SMS to have become the first such institute in the history of technical educational institutions to be included in the Limca Book of Record for the third time.
