Message

It gives me immense pleasure to note that School of Management Sciences, Lucknow is organizing 5th International Seminar on “Sources of Planet Energy, Environmental & Disaster Science (SPEEDS-2019): Impact of Non-Conventional Energy Resources” on 07th & 08th February, 2020.

Climate change is now a global challenge. In the past few years, it has attracted considerable attention from the Indian Government, media houses and society at large. In fact, this pertinent issue has now crossed all borders, and gained international attention recently. This seminar is being organized at time when a major part of our community does not know what climate change really amounts to, due to unreliable sources or deliberate misinformation that has found roots in our country. In such a time, I am particularly glad to note that this seminar will address the crucial impact of non-conventional energy resources on the environment.

Once again, I heartily congratulate the organizers of this seminar for choosing such a pertinent topic for discussion.

Good luck!

Regards,

(Prof. Mahrukh Mirza)
Vice Chancellor
