

Personal Briefing

I am serving as an Assistant Professor (Stage III/ Level 12) in the Department of Physics, Shia Post Graduate College, Lucknow. My research field is Quantum Chemical study of the bioactive compounds and presently working also in the study of molecular modeling for drug design. I have 22 research papers in National and International Journals of good impact factors published under the umbrella like Springer link, Scopus and WoS etc. I have also given my services as reviewer in some Journals for instance Spectro Chimica Acta Part B and E Journal of Chemistry. Besides it there are around thirty conferences in which I took part as Oral/Poster presentations and as chairperson.
